

Dynamic Physiotherapy Response to COVID-19

In light of COVID-19's spread throughout the community, Dynamic Physiotherapy will be making changes to the delivery of our services in order to maintain the highest level of health, safety and hygiene. We will be pre-screening all visitors to our clinic, and staggering our appointments to ensure 6 feet of distance can be maintained.

Our clinic is open on Mondays, Wednesdays and Thursdays for Physiotherapy, Massage and Acupuncture. We're also open to provide physical support products such as compression stockings, braces, back supports, and more. Please don't hesitate to call us at 289-201-2442, or you can [contact us here](#), for further support.

Being a healthcare facility, we have always been proactive in making every effort possible to keep equipment and the environment we work in clean and bacteria-free. Now more than ever, the health and safety of all visitors to our clinics is our foremost priority.

We greatly appreciate you, and all of our patients and visitors at Dynamic Physiotherapy. We wish you all the best during this difficult time.
